

### MAKING MIXTURES GROUP GRADING SHEET

Mixture:

Students in Group:

QUESTIONS	POINTS
1. Which mixture did your group make? What were the ingredients? Describe the steps/process for making your mixture.	
2. What did you like/not like about this mixture?	
3. How would you organize and facilitate this activity with children to encourage their curiosity and scientific thinking?	
4. What advice do you have about how to set up the materials to make them most appropriate (safe, easy to share, etc.) for young children?	
5. What other tips, suggestions, and ideas for variations do you have for doing this activity with children (think about different ages and settings)?	

Grade: \_\_\_\_\_/10

- 2 - Question was fully answered
- 1 - Question was partially answered
- 0 - Question was not answered
